

Creating Content

Overview

[top](#)

Once you know your way around the system you will need to learn how to create various types of content. Work through the following basic tutorials to learn how to build each type of content.

	Step		Description
1.	Source Connection		Learn how to set up a Connection to a source database.
2.	View		Learn how to create a basic Drag & Drop View.
3.	Report		Learn how to create a basic Column Report with a Chart.
4.	Dashboard Tab		Learn how to set up a basic Standard Tab.
5.	Storyboard		Learn how to create a Storyboard.
6.	Discussion Streams		Learn how to create a Discussion Stream.
